SUMMARY

Real estate investment and research professional with hands-on experience in underwriting, transaction modelling and early-stage deal screening. Holds a PhD in Real Estate from NUS, with property-market research expertise spanning Singapore, China and the United States.

PROFESSIONAL EXPERIENCE

Research Fellow

Institute of Real Estate and Urban Studies (IREUS), NUS

From Sep 2026

Singapore

Senior Business Researcher

JL Investment Group (JLIG)

Jan 2026 – May 2026

Singapore

- Underwrote a prospective real estate investment, building the transaction cash-flow model from the ground up and stress-testing key assumptions through sensitivity and downside scenarios.
- Authored investment memos and analytical summaries for the principal and senior management, articulating the investment thesis, return drivers, downside risks, comparable evidence and outstanding diligence questions.
- Supported business development and deal sourcing, joining meetings with founders and business owners seeking investment from JLIG and contributing to the early screening of prospective opportunities.
- Prepared transaction information for discussions with prospective capital partners and maintained investment and portfolio records for internal and external review.

Short-Term Consultant

World Bank Group

2025

Washington, D.C.

- Produced evidence syntheses and analytical notes with Dr. Leora Klapper, distilling large literatures into decision-ready briefs for senior stakeholders under tight deadlines.

Editorial Assistant

China Economic Review

2021 – 2026

Remote

- Edited and translated research summaries for the journal's social media, coordinating with authors to ensure accuracy, accessibility and timely publication.

REAL ESTATE & FINANCE RESEARCH

Visiting Scholar in Finance

Univ. of Texas at Austin — Prof. Sheridan Titman

2024 – 2025

Austin, USA

- Analysed valuation models, housing affordability and U.S. market trends using large property databases, working with Professor Sheridan Titman.

Doctoral Researcher, Real Estate

National University of Singapore

2021 – 2026

Singapore

- Analysed Singapore's HDB resale and private residential transaction records to estimate how MRT access and last-mile infrastructure are capitalised into property values.
- Linked national land-transaction records to power-plant commissioning to quantify how energy investment moves surrounding land values and real-asset risk.
- Measured equity-to-housing transmission through China's 2014–2015 cycle — a direct read on cross-asset allocation and portfolio risk.

Research Assistant

Prof. Sumit Agarwal (NUS); Prof. Lin Tian (INSEAD); Jinan University

2017 – 2022

Singapore / Remote

SKILLS

Investment analysis: Real estate underwriting; cash-flow modelling; sensitivity and downside analysis; due diligence; deal screening; market and comparable analysis; rental analysis; investment memos; investment and management presentations.

Market expertise: Singapore residential and land; China land and housing; U.S. residential.

Technical: Excel (financial modelling); PowerPoint; Python; SQL; Stata; ArcGIS/QGIS.

Languages: Mandarin Chinese (native); English (professional).

EDUCATION

PhD in Real Estate, National University of Singapore

Singapore | 2021–2026

Master of Economics, Jinan University

Guangzhou, China | 2018–2021

Bachelor of Economics, Northwest University

Xi'an, China | 2014–2018

SELECTED RESEARCH — REAL ESTATE & PROPERTY MARKETS

- **Sheltered Last 400 Meters: Public Transport Accessibility and Property Prices:** how transit accessibility is capitalised into Singapore public and private property prices; a direct read on infrastructure-driven value creation.
- **Walking Under Shelter: Singapore's Sheltered Walkway Program:** the effect of last-mile infrastructure on travel behaviour.
- **The Economic Gains from Renewable Energy: Evidence from China's Land Market:** links national land transactions to power-plant commissioning to price energy investment into surrounding land values and real-asset risk.
- **Steady Homes amid Market Waves: Stock Market Volatility and Housing Prices:** equity-to-housing transmission through China's 2014–2015 cycle.
- *Additional:* municipal waste and incineration pollution; extreme weather, outages and firm behaviour; spatial competition and firm outcomes.

AWARDS & PROFESSIONAL SERVICE

NUS Research Scholarship (2021–2026); Postgraduate Academic Scholarship, Jinan University (2018–2021); Outstanding Student Scholarship, Northwest University (2015–2018).

Journal referee: *Real Estate Economics*; *Economics of Transition and Institutional Change*; *Applied Economics*.
